## Summary for Week 4

During the 4<sup>th</sup> week, we started to decide how we were going to do the database for the assignment itself. It was a long and difficult task because we had a lot of disagreements on how we were going to do. Some of us read the proposal in a different way from what it was supposed to be so, that is how the disagreement started to happen. Later on when we decided on how our database was going to be, Albert started to create the tables and schema for the assignment. This however was not started until we all decided on what the database was going to be. Even though it was almost a week, it was until the very last few days we decided on the database.

## Activities & Outputs

	Task	Assignee	Status	Due Date
1	Group meeting ( <i>Deciding the database for the assignment</i> ).	Everyone	Completed	November 7 <sup>th</sup> Completed on <u>November 9<sup>th</sup></u>
2	Started to create the tables and schema	Albert Nguyen ( <i>Toan and Keefe Helped a bit</i> )	Completed	November 10 <sup>th</sup>
3	Reviewing the tables and schema	Everyone	Completed	November 10 <sup>th</sup>
4	Group Project Status	Keefe Chan	Completed	November 11 <sup>th</sup>

Task 1 took so long because of the issue of interpreting the proposal wrong for some people. Had a lot of arguments but, this is what a group assignment is all about.
